To whom it may Concern:

The purpose of this correspondence is to issue a letter of support and recommendation for Jack Bullock of Mt. Vernon, Illinois and his sports website "A Baseline View."

For that past few years Jack has operated the aforementioned website, published a news letter and in general promoted high school basketball better than any single individual in Southern Illinois.

Jack's efforts has been fantastic and the service he provides to we area schools in terms of coverage and publicity cannot be measured in words of praise nor can his efforts have a price tag of value attached to it.

I can truthfully say that during the course of the basketball season I access his web site every single day and on occasions multiple times each day. It is without a doubt 'the place' to find updated scores, check schedules of upcoming games, find out the parings for tournaments and shoot-out sessions,

His pre-season previews are always helpful in preparing initial scouting reports for early season contests.

Without Jack's service our program and the others located in his coverage area would certainly suffer from a lack of exposure as well as his verbal and written support.

Southern Illinois High School Basketball needs Jack Bullock and his website "A Baseline View."

Sincerely,

J. Mitch Haskins  
Director of Athletics
