

Hello Coach,

Because of some issues with the online questionnaire, I have attached this PDF to give you the questions here.

You can just put the information for each of the questions in an email or your own document.

I have made the questionnaire shorter and to the point with just three actual questions.

I have your 2025-26 roster and, for some of the teams, I have the final stats from last season as well.

I know what your won/loss record is from last winter.

I just need is who are you expecting to start and come off of the bench this season and what, if any, sort of milestones are being approached by you as a coach or any of your players.

To put the names of your kids in the form you can simply copy and paste them in from a roster if you need to.

The deadline for the questionnaire is November 1, 2026. But I encourage you to do it ASAP.

This way I have time to write the preview, then check back with you the week before the season begins to see if any changes need to be made.

If you have any questions just let me know.

Thank you and best of luck this season.

Jack
